### JOA Partners on Face Mask Supply

*Sheboygan Falls, USA (April 14, 2020)* – Curt G. Joa, Inc., a global, custom-engineering design and machine-building company, announced its efforts to partner with suppliers of Personal Protective Equipment items (PPE) to increase production of N95 face masks, one of the key protective devices used by caregivers. JOA will supply these high-speed machines to their partners in record time.

The challenge for companies considered “Critical Infrastructure,” such as JOA, is keeping their employees safe as they work through this crisis. JOA follows all CDC and WHO guidelines and has implemented an additional, aggressive continuous improvement program aimed solely at protecting their employees from COVID-19. Update meetings and brainstorming sessions occur daily, and personnel dedicated temporarily to focus full-time on continuously improving the protection for employees from the virus. One of JOA’s most innovative programs is their “all hands on deck” cleaning break which is scheduled twice a day.

By keeping their employees safe, JOA continues to serve the market's needs as the world addresses the impact of COVID-19.

**About Curt G. Joa, Inc.**

Curt G. Joa, Inc., a global leader of custom and premium machinery to produce disposable products, utilizes its own independently developed and patented technologies in its machinery.
